

"Say, Lissen"

DON'T TRUST A PERSON THAT STUTTERS BECAUSE THEY ALWAYS BREAK THEIR WORD.

A Close Game

Innisfail played for the Mitchell Cup here on Tuesday evening and were very nearly successful in winning it. The ice was rather heavy especially on the south side.

The visiting green rink of T. Tedeschini, E. Loeble, N. Schwerdfeger and D. Kremer skip, played Peterson, E. Ford, J. Fleury and Frank Kauftman skip. Frank and most of his men were rather off their game and together with the heavy ice, went down by a score of 22 to 4 for Innisfail.

The local senior rink were going strong and done some fine curling. E. Edwards, F. Kirkham, W. Wilson and N. Fox skip, played H. Chambers, T. Thompson, J. Huget and J. Miller skip, Didsbury. Score 23 to 4 for Didsbury, thus holding the Cup by one point. The credit for the game certainly goes to the senior rink.

The Didsbury bonspiel will now be played off providing the ice holds. Further particulars next week.

A Farewell Party

A surprise party was held on Tuesday, February 26th, 1924, when about fifty friends and neighbors pleasantly surprised Mr. and Mrs. J. K. Devitt at their home. The evening was very pleasantly spent in games in which everyone enjoyed themselves and a delectable lunch was then served with Mr. and Mrs. Devitt and Mr. and Mrs. Harder seated at a table in the midst. The following address was then given:

To Mr. and Mrs. Devitt—Dear friends, we have met with you to night on the eve of your departure from our midst, feeling we could not let you go without expressing in some way, our extreme regret in losing a kind and helpful neighbor one we very deeply regret to lose. Also Mr. and Mrs. Harder, a friend in need and a friend indeed, but we know that our loss will be some one else's gain, for we know where ever you go you will carry on the good work. We would ask you to accept this well filled purse as a token of remembrance from your friends and neighbors.

Signed

Mr. E. Liesemer.
Mrs. McAllister.
Mrs. Shields.

The gathering then broke up after singing "God be with You Till We Meet Again."

Twenty-one cases of smallpox are reported in Calgary.

CARD OF THANKS

To the electors who gave me their support at the polls on Saturday, February 23rd, I wish to tender my sincere thanks.

Wm. H. Lyons, Jutland.

AROUND THE TOWN

Mr. R. A. Good was a week end visitor in Red Deer.

Miss Ruby Weber spent the week end with her parents in town.

Mr. Cecil Studer was home from Calgary over the week end.

Mr. Eluid Crossman spent the week end in Calgary.

Miss Mary McIntyre was a visitor in Calgary last week.

Mrs. T. Thompson and Mrs. H. C. Rennie were visitors in Calgary on Tuesday.

Mr. James Clarke was a guest of Mr. and Mrs. F. Mertens last week end.

Rev. W. J. McNutt will conduct services at Community Hall on Sunday, March 16th at 3 p. m.

The St. Elgi Women's Institute will hold a chicken supper and card party in Elkton school on March 17. Adults 50c.

A whist drive and dance will be held in the Didsbury Opera House on Friday, March 7th, under the auspices of the Eastern Star. Admission 75c.

Miss Ruby Archer of the Calgary General Hospital staff spent Tuesday with her parents, Mr. and Mrs. W. D. Archer, previous to her departure for San Francisco.

The Women's Guild of the Church of England will hold a thimble tea at the home of Mrs. Leadbetter on Wednesday, March 12th. 25c Col. lection.

Sunday school meets every Sunday at 2 p. m. at Jutland school. Preaching service every alternate Sunday at 3 p. m. J. E. Bender, pastor.

A purebred Holstein Bull 5 1/2 years old, "Rock Alta Wayne," will also be offered for sale at the sale being conducted by Mr. Gordon Manhard on Saturday, March 8th. E. Sherrick.

The Didsbury Women's Institute will meet at the home of Mrs. W. Hillyard on Friday, March 14th. A paper will be given by Mrs. McCoy, convener of Agriculture, and music will be provided. Everybody welcome.

The following visitors came to the Rosebud Flour Mills on business last week: P. Quigley, Carstairs; R. J. Nelson, Harmattan; Mr. Stepieler, Cremona; Mr. Armstrong and Mr. Martin, Olds; Mr. Brightman, Bowden; Mr. Woods of the Olds Orphanage.

There is at least one industry in town which is doing its best to announce to visitors that we are not altogether asleep. The Rosebud Flour Mills now announces by its whistle every day the time for labor and refreshment. Why cannot the Creamery and the Town Power Plant do the same and let everybody know that Didsbury is not in the class of has-beens.

The Annual Sunday school and Ministerial Convention of the M. B. C. church in Didsbury will be held on Tuesday and Wednesday next, March 11th and 12th. A very interesting program has been arranged and no doubt those who attend will derive great benefit from the deep subjects to be discussed.

Didsbury was flooded with visitors on Tuesday night. Besides the two curling rinks from Innisfail the following gentlemen from Carstairs

came up to visit King Hiram Lodge, A. F. and A. M.: J. D. King, H. J. Pearson, Chas. Pearson, F. R. Smith, J. Hammel, W. A. Pryor, H. S. McMillan, C. Shantz, A. E. McDonald and Chas. Stewart.

BORN:—At the Didsbury General Hospital, on Tuesday, March 4th, 1924, to Mr. and Mrs. Chas. Mortimer, a son.

A Rare Herd of Holsteins

Thinking it would be of interest to some of the readers of the Didsbury Pioneer to know something of the breeding of the purebred Holsteins offered for sale on March 8th by Gordon Manhard a short description of the same.

The two cows are extra choice ones, very heavy producers, the kind that will shortly pay for themselves.

The heifers are from some of the best blood lines to be found in Ontario. Special mention might be made of Bright View Snowflake Keyes, born March 10, 1923. She being sired by a sire of Kate of Roselawn, the second highest milk and butter cow in Canada, her best days milk being 133 lbs. and she made 150 lbs. butter from 34.37 lbs. milk 30 days (official). The heifers grandsire was also full brother to De Kol Plus Segie Dixie, the cow that recently broke the world's record for butter for one year, 1,636 lbs. butter from 33,464 lbs. milk, average test for one year being 4.03 per cent. She traces 5 times to Netherland Hengerveld the grand dam of Hengerveld De Kol.

The two 3 year olds are both sired by grandson of the world renowned May Echo Sylvia. She holds all milk records from one to one hundred days. One of these heifers is also a granddaughter of De Kol Plus Segie Dixie. (See above).

One yearling heifer was sired by King Echo Sylvia Belle Model 2nd. Mr. Carmen Baker paid over \$7,000 to Hon. A. C. Hardy for this famous sire. It is seldom Alberta breeders

W. C. T. U. Notes

The W. C. T. U. will hold a sale of all kinds of home cooking and needlework consisting of aprons, towels, children's wear and fancy work, in the Klinclock Block, formerly occupied by Mr. Parker Reed, on Saturday afternoon, March 15th. Lunch will be served from 3 until 7 o'clock. Remember the date. This is your opportunity. We need funds to carry on the work.

The W. C. T. U. will hold their regular meeting at the home of Mrs. Bender on Tuesday, March 11th, instead of Thursday, at 3 o'clock. Subject for this meeting: "What women may do to promote peace on earth." All ladies are invited to be present.

A letter was received from Mr. Geo. Wood of Olds expressing his thanks and appreciation to all who contributed toward the support of the Orphans in his care.

EDITORIAL

WORK TOGETHER

Most people in the district know that the Flour Mills south of town has changed its name because of the clash with another Alberta Company who is in the same business, and that the mills are now called the Rosebud Flour Mills.

It is doubtful, however, if the business men or residents of the town and district realize the distinct benefit that these mills are to us. Last year they were the means of attracting over 500 outsiders here, people who do not get their mail

here but who have heard of the mills and come here to get their flour and other mill supplies. A large number of them either have to stay overnight or else spend some hours here with the consequence that they leave a certain amount of money with the business men of Didsbury. Is that fact realized? These mills which manufacture not only flour but a great many other lines are a distinct asset to us and the public should show their appreciation by purchasing its products whenever possible.

The farming community also derive a great benefit because of their location here. They not only can get their flour in exchange for their wheat but they also get the benefit of the feed that is left. The mills are run on practically a co-operative system, the farmer can bring forty bushels of wheat to the mills and it has been stated that you can save fifteen dollars. Why not prove this by testing it.

Support your own industry by boosting instead of knocking, and help build up instead of pulling down. It pays both ourselves and the industry.

To the Citizens of Didsbury and District

Take Notice

That the name of our wheatlet is **ROSEBUD CREAM** and is packed in 10 lb. branded containers.

We are not associated with any other brand of wheatlet made.

Pain & Irritation Made Life Miserable

Mr. John M. Theriault writes from Saulnierville, Digby Co., N.S.: "For two years my life was made miserable by that most painful and depressing complaint—Piles. The doctors said I must never hope for relief without operation. One of my sons was using Zam-Buk to remove boils when I happened to see it recommended for piles."

"Zam-Buk soon subdued pain and irritation, and before I was through the first box I was feeling the full effect of its great soothing and healing power. Perseverance brought permanent relief. Use Zam-Buk for all sore, inflamed conditions of the skin, and for quick healing of injuries."

PILES soon banished by Zam-Buk

Western Optimism

A million farmers producing grain north of the Canadian National line in Alberta within five years, is predicted by Mayor Blatchford, of Edmonton. And yet they say that western optimism has been dulled.—Financial Post.

TORTURES OF SCIATICA

Relieved by Enriching and Purifying the Blood

Sciatica is neuralgia of the sciatic nerve and the treatment should be the same as for other forms of neuralgia. Sciatica is stubborn in resisting treatment and the patient frequently suffers for years.

So many cases of sciatica have been helped by Dr. Williams' Pink Pills that every sufferer is justified in giving this treatment a thorough trial. Dr. Williams' Pink Pills do not simply relieve pain—they correct diseases caused by weak, watery blood. Thus they are beneficial in the treatment of even the most severe disorders. Their value in cases of this kind is shown by the experience of Miss Lizzie Freeman, Nogies Creek, Ont., who says: "I was confined to bed for seven weeks with sciatica. What I suffered is almost impossible to realize. The doctor did all he could for me, and yet I was not getting any better, and he told me the trouble was likely to leave me crippled. A neighbor who was in to see me, strongly advised me to try Dr. Williams' Pink Pills. I decided to do so and after taking them for a while found they were helping me. I continued taking the pills until I had taken nine boxes, when I was able to walk as well as ever, and felt that I was fully restored. In view of what these pills have done for me I strongly recommend them to all sufferers."

If you are suffering from any condition due to poor, watery blood or weak nerves, begin taking Dr. Williams' Pink Pills now and note how your strength and health will improve. The new sales tax will not increase the price of Dr. Williams' Pink Pills, as the company pays the tax. You can still obtain the pills through any medicine dealer at 50 cents a box, or by mail, post paid, at this price, from The Dr. Williams' Medicine Co., Brockville, Ont.

St. Lawrence River Navigation

Navigation of the St. Lawrence River is expected to open early in the month of April. According to preliminary schedules issued by the various steamship companies operating between Canadian Atlantic ports and Europe, 192 ships will visit Quebec during 1924.

CHILDREN CRY FOR "CASTORIA"

A Harmless Substitute for Castor Oil, Purgative, Drops and Soothing Syrups — No Narcotics!

Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of food; giving natural sleep without opiates. The genuine bears signature of

SUNDAY SCHOOL LESSON

FEBRUARY 10

THE FAILURE OF KADESH

Golden Text.—Jehovah is with us; fear them not. Numbers 14.9.
Lesson.—Numbers 13.17 to 14.45; Deuteronomy 1.26-40.
Devotional Reading.—Romans 8.31-39.

The Text Explained and Illumined

1. The Rebellion of the People, verses 1-4. Moses sent out Caleb and eleven others to explore the Promised Land. The ability of the Israelites to enter it had never been based on human resources; was it to be thus based now? "The land was ready for the people, but were the people ready for the land? The report which Caleb and his companions were to bring was to decide, not a question of geography, but a question of philosophy. It was to test the present capacity of the people of God, to determine whether the heart of Israel was ripe for its inheritance" (George Matheson). See The Historical Background. So great was the panic of the people when they heard the report of the ten spies, that after weeping all night they proposed to return to Egypt, the land of their bondage. They blamed their leaders, Moses and Aaron; they blamed God. "Would that we had died in the land of Egypt, or in this wilderness!" they cried. "Wherefore doth Jehovah bring us into the land to fall by the sword? Our wives and our little ones will be prey!" "Such was the cry of the coward, who always sees present conditions at their darkest and any other conditions at their brightest." The rebellious people even proposed to select a leader to supplant Moses and lead them back into slavery. "The morrow was filled with difficulty, and they forgot the witness of yesterday. There were giants ahead, and they forgot God. They had gained no fine deposit of faith from the providences of the past. The mere rumor of a difficulty filled them with fright, and they longed for a captain who would lead them back to the fleshpots of Egypt."

"And are we any better than these murmuring hosts of olden days? Are we entitled to sit as critics and judges, or must we take our place by their side? Have we ever retreated when religion was becoming too costly? Have we ever thought of desertion when giants were named? These are questions which test the faith and quality of the soul. Our very hearts stand revealed by our attitude to stupendous tasks. The purifying of New York and London, the evangelization of the world in this generation; how do these affect us? Do they quicken the pulse or do they slacken it? Do we loosen or tighten our purse-strings? Do we shrink from the sacrifice with the spirit of murmuring, or do we leap to it with a heart aflame with love for the Lord our God?" (Jowett).

Grain Car Record

From the opening of the crop year, September 1, to date, more than 110,000 cars of grain were loaded at Canadian National points throughout the west. The 110,000 cars contained 114,450,000 bushels of grain, as against a total of 118,631,000 bushels loaded in the same period of 1922-23, an increase of nearly 26,000,000 bushels.

In all infantile complaints that are the result of the deprivations of worms in the stomach and intestines, Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

The "grand balance" or scale used in the Bank of England is so sensitive that the weight of a postage stamp moves the index six inches.

2 Years' Backache

Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros' Drug Store, I heard of Nerviline being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two-years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 35c at all dealers.

Evidences of Prosperity

Some Western Farmers Can Afford to Go Globe Trotting

What would seem to constitute clear evidence of the general prosperity of the man on the land in Western Canada at the present time is the fact that in the passenger list of the round-the-world cruise on the Canadian Pacific S.S. Empress of Canada, Western Canada is particularly well represented. Such cattle and wheat towns as High River, Hussar and Standard are away in the lead, indicating the agriculturists of these sections have found their farming operations sufficiently profitable to spend the winter globe trotting.

PIMPLES BLOTCHES

All skin diseases such as pimples originate through failure of the kidneys and liver. All taints that block the avenues of health must be removed. Dr. Hamilton's Pills do this quickly. They cleanse the system, make the skin smooth, restore roses to the cheeks, and give clear, dainty complexion.

DR. HAMILTON'S PILLS

For good looks, good health, and good spirits, there is nothing so sure as Dr. Hamilton's Pills. 25c boxes, five for \$1.00, all dealers, or The Catarhazone Co., Montreal.

Saskatchewan Briquettes

Carload Reaches Ottawa and Will Be Given Thorough Test

The carload of Saskatchewan lignite briquettes consigned by the Saskatchewan Lignite Utilization Board to the Dominion Government has arrived in Ottawa. It will be used by the Dominion Fuel Board for testing purposes. The briquettes were made in a plant in North Dakota from Saskatchewan lignite and the board has given a carload each to the Dominion Government and the Governments of Manitoba and Saskatchewan.

Distribution of the briquettes has begun. A large part of the carload will be tested in government furnaces. Supplies will also be given to a selected list of householders who are interested in lignite as a solution of the fuel problem of Central Canada.

Mother! Give Sick Child "California Fig Syrup"

Harmless Laxative for a Bilious, Constipated Baby or Child

Constipated, bilious, feverish, or sick, colic babies and children love to take genuine "California Fig Syrup." No other laxative regulates it so sweetly, the bowels so nicely, the tender little stomach and starts the liver and bowels acting without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits! Insist upon genuine "California Fig Syrup" which contains directions.

Canada Gets Sixth of Emigrants

There were 43,000 emigrants from Great Britain to the overseas dominions last year who were assisted in the payment of their passage money by the committee acting under the British Empire Settlement Act. Of the number 7,330 went to Canada. The remainder went to Australia and New Zealand. A statement to the above effect was made in the House of Commons on behalf of the colonial office.

Laying New Cable

Will Lay Cable to Alaska in Course of 41,000-Mile Trip

With a crack crew on board, and every modern device known to science installed, the U.S. Government cable-ship, Dellwood, the only vessel of its kind under the American flag, will start from Seattle for London, via Nome, the first leg of a 41,000-mile trip, during which it will lay a new cable to Alaska, the war department has announced.

Among the scientific devices on board is the "gyro-pilot," a mechanical steering instrument, which rectifies instantly any deviation in the vessel's course. It is estimated that enough cable at \$1,000 a mile will be saved by this device to pay for it ten times over in laying the new cable.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

Trial Trip a Success

Boat Makes Trip From Great Lakes to B.C. in 25 Days

From the Great Lakes to Vancouver in 25 days is the record of the Kirkwood line steamer, J. H. Plummer, which reached Vancouver recently. F. W. Hudson, president of the line, stated that though the trip was only a trial one, prospects were good for a continuation of the service.

The Plummer brought pianos, wire cable, roofing paper, rubber tires, pickles, paints and honey. Candles, also carried as an experiment, to ascertain if they would stand the journey through the Panama Canal, reached Vancouver apparently in excellent shape.

Why "Better Class?"

An English newspaper says the "better class ladies" of the neighborhood ostracized for a time the factory girl whom Rev. S. Baring-Gould, the author of "Onward, Christian Soldiers," educated, married and lived happily for ever after. Why "better class?" Perhaps the use of such terms explains in some degree the revolt in Great Britain against the caste system.—Toronto Globe.

RICH IN VITAMINES

MAKE PERFECT BREAD

Extension to Elevator

The Roba Hood Milling Company announce that it is their intention to build an extension on its elevator at Calgary next spring, commencing operations about April 15, to provide storage for 250,000 bushels of grain.

Girls! Hair Grows Thick and Beautiful

35-Cent "Danderine" Does Wonders for Lifeless, Neglected Hair

A gleamy mass of luxuriant hair full of gloss, lustre and life shortly follows a genuine toning up of neglected scalp with dependable "Danderine." Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Danderine" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy! Any drug store.

Manitoba Beekeepers

Manitoba beekeepers last year produced 3,041,712 pounds of honey, compared with 1,800,000 last year and less than 1,000,000 pounds in 1921. The average production per hive was 155 pounds.

A cup of Aunt Jemima A cup of water (or milk if you prefer)

-all you need for perfect pancakes

Make one batch of Aunt Jemima Pancakes this easy way, you'll never go back to the old way with its tedious measuring and mixing. It's done in a minute yet, with Aunt Jemima Pancake Flour, you can make pancakes as fine as any you've ever tasted. This is Aunt Jemima's famous Southern recipe ready mixed! Try it.

Eases Kitchen Work

To Women Who Do Their Own Work: Suppose you could save six minutes every day in washing pots and pans—two minutes after every meal. In a month, this would amount to a saving of three hours of this disagreeable but necessary work. This saving can be made by using SMP enameled kitchen utensils, as their smooth sanitary surface will not absorb dirt or grease. No scraping, scouring or polishing is needed when you use Diamond or Pearl Ware. Soap, water and a dish towel is all you need. Ask for

SMP Enameled WARE

"A Face of Porcelain and a Heart of Steel"

Three finishes: Pearl Ware, two coats of pearly grey enamel inside and out. Diamond Ware, three coats, light blue and white outside, white lining. Crystal Ware, three coats, pure white inside and out, with Royal Blue edging.

CABINET CHANGES ARE ANNOUNCED BY OTTAWA GOVT.

Ottawa.—Two Cabinet changes are announced, namely, Hon. Ernest Lapointe, minister of marine and fisheries, to become minister of justice; and P. J. A. Cardin, member for Richelieu, appointed minister of marine and fisheries in succession to Mr. Lapointe.

The appointment of Mr. Lapointe fills the vacancy at the department of justice caused by the resignation of Sir Lomer Gouin. Since Sir Lomer resigned Mr. Lapointe has been acting minister of justice. As Mr. Lapointe already holds a salaried position, his new appointment will not entail a by-election.

Mr. Cardin who now becomes minister of marine and fisheries, is an accession to the Cabinet, and his appointment will necessitate a by-election in Richelieu county. In the last general election Mr. Cardin carried Richelieu by a majority of 1,662, and in every contest from 1896 onwards the constituency has returned a Liberal to the federal house.

ASPIRIN

Beware of Imitations!

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-three years for Colds, Headache, Toothache, Lumbago, Neuritis, Rheumatism, Neuralgia, Pain, Pain. Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proven directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocellulose of Salford, England. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Danger From Films

Ottawa.—The tremendous danger incurred by the storing of used films in any other places specially prepared vaults, especially in hospitals and similar institutions where the X-ray apparatus was freely used, was emphasized at the annual convention of Dominion Fire Prevention Association here.

New York now has more than 1,750,000 telephones.

Children Delight In Cuticura Soap Baths

Because they are soothing and refreshing for tender skins, especially if assisted by Cuticura Ointment on first signs of redness or roughness. The Cuticura Talcum also, delicately medicated and exquisitely perfumed, is excellent for little ones.

Soap 25c. Ointment 25c and 50c. Talcum 25c. Sold throughout the Dominion, Canadian Depot: Lums, Limited, 344 St. Paul St., Montreal.

W. N. U. 1510

Not Appointing A Minister to Washington

Ottawa.—The Canadian Government is not at present considering the appointment of a minister to Washington. This was indicated in a statement made by Premier King in reference to newspaper reports connecting the name of Sir Arthur Currie, president of McGill University, with the proposed post. "During the present year," said the premier, "the question of the appointment of a representative to Washington has not been considered. The reports evidently refer to rumors that were current some time ago."

Value Of Farm Statistics

Dominion Bureau Will Continue to Send Out Reports on Field Crops and Livestock

Ottawa.—The conference on agricultural statistics, which has been holding sessions here, decided to continue for the present collecting statistics on field crops and livestock through the schools, except in Prince Edward Island and British Columbia, where this information is obtained through the mails.

The resolution in which this decision was set forth had a rider appended in which the conference put itself on record as in favor of collection through more permanent officials than the school teachers. It was admitted that the change must be gradual.

In another resolution, the conference decided in favor of a campaign of education to impress agriculturists with the value of statistics. In this connection it was suggested that a representative of the Dominion Bureau of Statistics should visit meetings of farmers and explain the question. In the case of Saskatchewan and British Columbia, it was agreed that the system of having the Dominion Bureau of Statistics and the provincial agricultural departments share the work of crop reporting during growth, should be continued. It was decided to recommend this method to the other provinces.

Alberta Liquor Law

Thirsty Ones May Have Beer Delivered About Middle of March

Edmonton.—Some time in March—probably about the middle of the month—Alberta householders will be able to get delivery of beer to their private residences, provided that the liquor act passes the legislature in the form now proposed. The act will go into effect on proclamation and the clause pertaining to brewers' sales will be the first to become operative. Arrangements for the hard liquor end of the system will follow as quickly as possible including the location and setting up of vendors' shops.

Ladies Remove Their Corns In a Simple Way

No pain, no trouble, costs only a quarter. It is a very simple thing to put on a small application of good old "Putnam's" night and morning. To remove corns, to get entirely free from them, use Putnam's Corn & Wart Extractor. It is guaranteed, 25c at all dealers. Refuse a substitute.

Want Colonies Restored

Germany Would Give Remedy For Sleeping Sickness in Return

Bremen.—Unconditional restoration of Germany's colonies and pre-war rights in the price demanded by the German Colonial Society for a new remedy for the prevention of sleeping sickness. The society expresses the belief that Germany, in the remedy, has a powerful political weapon in hand which places her in a position to enforce revocation of the colonial mandates executed under the Versailles treaty.

"Germany holds the key to Central Africa in the remedy," says Dr. Zache, well known as a colonial expert. He expressed the belief that the remedy for sleeping sickness and its fever is destined to convert Central Africa into a prosperous, fertile country, inhabited by an industrious people.

"No colonies, no remedy," is the defy hurled by Edouard Achells, chairman of the Bremen section of the German Colonial Society.

WESTERN EDITORS

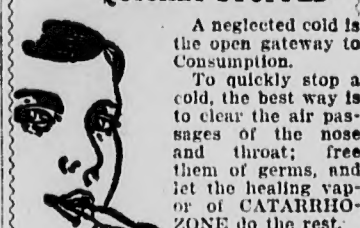

Albert T. White, Editor and Publisher of The Express, Broadview, Sask.

Would Abolish Death Sentence

London.—R. Clinie, Labor M.P., Kilmarnock, is promoting a bill in the House of Commons for the abolition of capital punishment. The second reading of the bill probably will be reached in April.

NOSE COLDS QUICKLY STOPPED

A neglected cold is the open gateway to Consumption. To quickly stop a cold, the best way is to clear the air passages of the nose and throat; free them of germs, and let the healing vapor of CATARRHOZONE do the rest. One breath of CATARRHOZONE brings instant relief. Your suffering stops. Hoarseness is relieved, throat and nose are cleared, inflamed bronchial tubes are healed, all danger of Catarrh is prevented. Carry CATARRHOZONE Inhaler in your purse, in your vest pocket, and use it when the first shiver or sneeze comes. Complete outfit, One Dollar, small size 50c. At all druggists. Refuse a substitute. By mail from The Catarrhozone Co., Montreal.

Reclamation Work In Alberta

A New Policy of Settlement and Development of Lands

Calgary.—Combining three branches of the reclamation service in Western Canada under one head, situated in Calgary, the adoption of a new policy of settlement and development of lands under irrigation and the temporary cessation of work on irrigation schemes not yet under development, form the principal part of a new plan instigated by the Federal Government at Ottawa and directly affecting the province of Alberta. This was made public by J. S. Tempest, formerly of Ottawa, who has been sent to this city to combine the three branches of the irrigation service of the government and to fill the position of acting commissioner of irrigation, vacated by the call of V. Meek to Ottawa, in an advisory capacity to the director of irrigation at the capital.

Tokio.—Organization of a company capitalized at approximately \$14,000,000 to foster Japanese immigration to South America, and to establish Japanese colonies on that continent, was announced here.

British Officials Will Investigate Boys' Suicide

London.—Official notice of the suicide of two English boys, Charles Bulpitt and John Payne, on Ontario farms within a few days of each other, has been taken by the overseas settlement committee, which administers the Empire Settlement Act under the government. Following is the colonial office announcement: "The overseas settlement committee state that they are making inquiries regarding the recent reports of suicide of two boy settlers in Canada. The committee is taking steps particularly to obtain full details of the history of the boys, both before they sailed from this country and after their arrival in Canada."

To Aid Dairying

Manitoba Dairy Association Adopts Resolutions at Convention

Winnipeg.—To further the development of mixed farming in Manitoba and the western provinces, the removal of duty on high grade cows imported by bona fide farmers for a period of one year, and the fostering of better trade relations with the United States in the matter of dairy products, was urged upon the Federal Government in a resolution adopted at the Manitoba Dairy Association convention here. A continuation of the compulsory grading of cream, which has been tried out in this province for the past eight months, was also approved by the convention. T. H. Rumbal, of Miami, Man., was elected president, and G. W. Towell, a member of the executive, as Manitoba's representative on the National Dairy Council.

Reported Sale of Mine

Saskatoon.—Reports received from The Pas state that the Mining Corporation of Canada has completed purchase of the Rex Gold property at Herb Lake. The deal is reported to have followed a lengthy investigation of the property's possibilities. No confirmation could be obtained here.

Could Not Work A Whole Day

But Now He Praises Dodd's Kidney Pills

Alfred Nadeau is enthusiastic over the remedy that brought him relief—Dodd's Kidney Pills.

Albertville, Que. — (Special). — "It gives me great pleasure to tell you that I am feeling very well, since I started taking your Dodd's Kidney Pills. I was not able to work a whole day without severe pains in my kidneys."

Your Dodd's Kidney Pills are a wonderful remedy for weak kidneys. Kindly publish my testimonial, so that all those who suffer may know about Dodd's Kidney Pills."

Mr. Alfred Nadeau, who lives here, makes the above statement. He feels that he owes it to other sufferers with sore kidneys, to tell them how he found relief from his suffering.

All Mr. Nadeau's troubles came from diseased kidneys. They speedily ceased when he commenced to use the one sure help for diseased kidneys—Dodd's Kidney Pills. There is no reason why anyone should continue to suffer when Dodd's Kidney Pills can be obtained from druggists everywhere, or The Dodd's Medicine Co., Ltd., Toronto.

London.—More than 1,000,000 homes in England are not fit to live in. This is the conclusion of the National Housing Council, which has inquired into the matter. The council estimates that 3,300,000 houses ought to be built in the next twenty years in England and that more than 600,000 new houses are required in Scotland.

LABOR PREMIER HAS CLEAR CUT FOREIGN POLICY

London.—Premier MacDonald's frank letter to Premier Poincare of France, in which he expressed regret that Franco-British relations were not as cordial as they might be, and advanced the hope that France might adopt a conciliatory spirit, is the topic of animated discussion in political and governmental circles here.

It was said authoritatively that the new Labor Prime Minister's letter may be taken as the keystone of the future foreign policy of the government. Mr. MacDonald believes that free and open negotiations along human, liberal, conciliatory lines will bring about settlement of the Ruhr reparations and Palatinate questions and the restoration of Europe quicker than the old-time secret diplomacy, with its uncertainties, suspicions and delays.

While the word "bold" may be too strong an adjective to be applied to the policy which Premier MacDonald is expected to adopt toward France, it is certain to be firm, frank and fearless. This is evidenced by the Premier's candid statement to M. Poincare that British public opinion views the French policy with a certain degree of suspicion and is apprehensive of what is going to happen in Europe.

His supporters also point to the Prime Minister's recent outspoken utterances regarding India, in which he warned the home rulers against methods of force, and his action in calling a conference of Irish Free State and Ulster Government heads on the difficult and delicate boundary question, which might easily be postponed. These are cited as an example of the Labor leader's determination to take a firm line in clearing up all outstanding questions at home and abroad.

Manitoba Beekeepers Meet

Pass Resolution Against Importation Of Bees on the Comb

Winnipeg.—Co-operation of the beekeepers' associations of Canada will be sought in an endeavor to have the Federal Government prohibit the importation of bees on the comb, second-hand supplies, or queens and bees in cages containing food made from honey, from the United States, it was decided at the Manitoba Beekeepers' Association convention here.

A resolution urging the Dominion Government to take action immediately was unanimously adopted. It was declared that the importations of bees on the comb had resulted in the bringing in of the disease known as "American honey foul brood."

Gasoline Prices Advance

Toronto.—Announcement is made by the local oil refiners that the price of gasoline will be advanced two cents per imperial gallon throughout practically the whole of Canada. This advance follows a similar jump made 10 days ago. The rise in price of crude oil is given as the reason for the increase.

A Rare Herd of Holsteins

Continued from page 1

class cattle. There is also a full brother to this heifer to be sold, born October 24, 1923.

Probably one of the richest bred bulls ever offered in Alberta is this ten months old bull. His dam being a daughter of Champion Echo Sylvia Pontiac. She freshened at two years and 16 days and made 22.19 lbs. butter in 7 days. Twenty dams in his pedigree average 31 lbs. butter 7 days, official. Pontiac Korndyke and Hengerveld De Kol are the two most noted bulls of the breed and mating Pontiac Korndyke to daughters of Hengerveld De Kol proved the best cross the breed has known. This bull traces five times to Pontiac Korndyke and Hengerveld De Kol Cross. He also traces to such noted sires as King Segis and De Kol Burke and such noted cows as Pontiac Clothilde De Kol 2nd, the first cow to produce over 1000 lbs. butter fat in 1 year, and Sadie Vale Concordia the first cow to produce 30 lbs. butter in seven days. This bull is good enough to head any purebred herd in Canada. Buy them good and breed them better. This is a rare opportunity to get started with the best.

The Didsbury Pioneer
THE PAPER THAT TALKS

Coastal Indians of Mysterious Origin

Left—A Siwash Squaw and "Papoose." This photograph was taken on the Canadian Pacific dock, Vancouver, where Indians have been granted permission to camp at certain seasons. Right—The striking feature of Siwash art is found in their grotesquely carved and painted totem poles. Inset—A typical infant Siwash.

THE Indians of coastal British Columbia are unlike any other Indians of North America. The name "Siwash", by which they are commonly distinguished from the plains Indians, is a corruption of the French word "sauvage", which the early explorers naturally applied to them. It is not a native name. They do not look at all like the plains Indians but like Orientals and, though their history is so obscure that it is impossible to trace their origin, this seems to prove beyond doubt that they are sprung from some such stock, most probably the Japanese. It is a fact that if a Siwash and a Japanese are dressed alike, one can hardly tell them apart.

How these people crossed the Pacific is a mystery. Perhaps they are the survivors of some hapless armada blown across the ocean in some bygone age. Perhaps they deliberately sailed across, like Columbus of the East. Perhaps they crossed by the ice of the Bering Straits. Anyhow, there they are.

There are many other points of resemblance between the Siwash and the Oriental. Like the primitive Japanese, the Siwashes live by hunting and fishing and are much on the water—in fact, their canoes are to them what the horse was to the Sioux. Like the primitive Japanese, again, and unlike the plains Indians, they do not live in tents but in houses, which, moreover, are of very similar architecture to those of the Flowery Kingdom, though built of wood. And, like the Japanese, they are a very poetic people, with a prolific and beautiful folk-lore.

But the most remarkable distinction enjoyed by the Siwashes is their art, which does not resemble that of any other race—certainly not that of any other American Indians. Of this, conventional realism sounds the key-note. Their buildings are richly and fantastically carved. Their ceremonial dresses are equally elaborate. They delight in bold effects

and bright colors, especially in red, blue and green, used in conjunction with black and white.

The striking feature of Siwash art is found in their grotesquely carved and painted totem poles, which are placed before the houses. These poles, made to represent a column of diabolical birds and beasts standing one above the other, form what is literally a family tree, the various totems telling the story of the ancestry of the people living in the house behind them. The Siwashes also manufacture weird images resembling the idols of African tribes, which are intended to exercise various supernatural powers, such as the driving away of evil spirits.

The Siwashes of past times were, in some instances, a war-like lot, fond of fighting and bloodshed. Occasionally, if tradition speaks truth, they put their decorative ability to sinister use. There is a story, well vouched for, of a festive meeting between two tribes which had called a truce in their otherwise perpetual feud. One tribe invited the other to a friendly banquet in the community dining-hall. The architect, after the fashion of natives, who glory in complicating simple things, had so designed the hall that the only entrance was through the beak of an enormous wooden bird forming the facade. No one outside could see or hear what was going on within the walls. Every one who entered had to do so alone and head first. In turn, the guests scrambled into the beak and vanished, until all had entered. None of them ever came out. Their treacherous hosts within, armed with clubs, gave each man his quietus as soon as his head appeared.

An extremely clever way of getting rid of objectionable folk with the least possible inconvenience, though not one which appeals to Christian men!

Today the coastal Indians are quiet and law-abiding citizens of Canada. But fine specimens of their picturesque art may still be seen at several villages not far from Vancouver and Victoria.

"He is not my Jim Cameron," she said calmly. "And I wouldn't say that he is just a hick, either. Of course he has to work hard, and he hasn't the sort of clothes your city friends wear, but perhaps he'd be able to afford good clothes and more good times if he had not 'wasted' five years overseas."

"I believe I'll take him on, anyway," Lilah replied provokingly, "since you've made it plain that you do not care. If I am going to put in two months here I've got to find some way to amuse myself. It's either Jim or Mr. Macleod, and I have a hunch that Jim would be the most exciting."

This conversation took place the week before Teddy came but the situation developed quickly. Lilah is a born trouble-maker, Jean as proud as she is direct and honest, and poor Jim, jealous and suspicious, was wax in the hands of a clever schemer. It was easy for Lilah to make him believe that Jean preferred Mr. Macleod, and that the spontaneous friendship that had sprung up between her and Teddy was calculated to pique the older man's interest. Jim should not have believed such things, of course, but he did not know the other side of the story—that Lilah twisted everything he said and made it appear to Jean that he had quite succumbed to her superior charms.

More than anything else that Lilah did I detested the subtle way she had of belittling Jean, of making her appear old-fashioned and foolishly unsophisticated.

BACK ACHED TERRIBLY

Mrs. McMahon Tells How She
Found Relief by Taking Lydia E.
Pinkham's Vegetable Compound

Chatham, Ont.—"I took Lydia E. Pinkham's Vegetable Compound for a run-down condition after the birth of my baby boy. I had terrible pains and backache, and was tired and weak, not fit to do my work and care for my three little children. One day I received your little book and read it, and gave up taking the medicine I had and began taking the Vegetable Compound. I feel much better now and am not ashamed to tell what it has done for me. I recommend it to any woman I think feels as I do."

—Mrs. J. R. McMAHON, 153 Harvey St., Chatham, Ont.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has for nearly fifty years been restoring sick, ailing women to health and strength. It relieves the troubles which cause such symptoms as backache, painful periods, irregularities, tired, worn-out feelings and nervousness. This is shown again and again by such letters as Mrs. McMahon writes, as well as by one woman telling another. These women know, and are willing to tell others, what it did for them; therefore, it is surely worth your trial.

Women who suffer should write to the Lydia E. Pinkham Medicine Co., Coughing, Ontario, for a free copy of Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women." 0

W. N. U. 1510

"Jean has such lovely hair," she would say, "it is too bad that she wears it in that out-of-date style that makes her look like her own grandmother. That is the worst of being so tall." And again, "When you come to visit me, Jean, Mamie and I will take you the rounds of the stores and show you what you should wear."

Such cousinly interest Jean took like the lady she is, but I could see that it hurt her, as it would have hurt any sensitive girl. My heart ached for her, and I could have cheerfully have deported Lilah and given Jim a large and brutally frank piece of my mind. But what could an outsider do?

One thing that pleased me was that Jean and Teddy took to each other like friendly children. It was "Jean" and "Teddy" by the end of the first week, and if Jim, in his hot-headed resentment, had gone over to the enemy Jean never lacked attention, Teddy's sudden devotion affording amusement for all of us who were lookers-on. Lilah did her best to annex Teddy too, but without success. He, being heart-whole, was not so easily worked upon as Jim, and the small-boy indifference that greeted all her efforts must have been maddening to her. And I have no doubt that it was balm to Jean's wounded pride.

CHAPTER TWENTY-TWO

I was glad to have had that happy summer to look back upon, for it was not long until worries came upon us thick and fast. From all over the province, and from farther west, we heard disquieting rumors of poor crops, low prices, unemployment and stationary freight rates. The season that had begun so promisingly had been a disappointing one, too much rain in some places and too little in others had affected both yield and grade and, to anticipate somewhat, by the time the grain was ready for the market prices had dropped to so low a point that even those farmers who had a fair crop considered themselves fortunate if they were able to make expenses.

To me at that time the crop reports in the "Free Press" took on a new meaning. Always before I had read them with little or no knowledge of what they meant to people whose daily bread, literally and figuratively, depended on the success of the harvest. But now it was different, I knew exactly what each acre had cost us, and what we needed to meet our liabilities. I did not say to myself, "Collections will be good in the Regina district this year," but rather, "Will we be able to meet our payments and still have enough left to see us through the winter?"

Our own crop was most promising, as were all the crops in the district. In so heavily-wooded a country we had not suffered from lack of moisture, and the wheat and oats grew strong and full in the new and weedless soil. But I could not but feel the helplessness that must touch everyone who is dependent on Nature—Nature who is, it seems to me, as often the cruel step-mother as the generous mother.

Murray and the Camerons had arranged to help each other with the harvest and a good part of the Cameron's grain had been cut when the weather broke. For a whole week it rained, a steady downpour that turned the door-yard into a bog and swelled our little creek almost to the height it had reached in the spring.

There was nothing for us to do but wait for clear weather, and the days dragged endlessly. A trip to the stable or the hen-house was all that broke the monotony, and these expeditions were scarcely profitable, for one sank ankle-deep in the mud with each step, and the dragged and disconsolate hens were a sight to dishearten the most cheerful of women. So as a rule I stayed in the house and sewed, or read or played the piano or talked to Murray or tried to amuse the children—anything to make us forget the wearisome drumming of the rain against roof and windows.

After a week of this we woke one

Saturday morning with the sun shining and the birds singing. It was, to be sure, very hot, and as the day wore on the atmosphere reminded me of the fever-to-be-forgotten Turkish bath I had once indulged in. The land almost steamed and there was no comfort to be had. But I did not dare to grumble, sunshine, I knew, was what we needed—I was not wise enough to know that steam heat is not best for a ripening crop.

Sunday was hotter than Saturday, and even more sultry. During the afternoon I put on my heavy boots and went with Murray and the children to look at the nearest field. The grain was ripe for cutting but badly beaten down by the rain, and Murray estimated that it would be several days before it would be dry enough to cut.

When we got back to the house Jim Cameron met us at the door with the information that his standing crop was in the same condition as ours and that he greatly feared the wheat that had been cut was growing in the stacks. There was, he thought, little danger of rust, he had heard of none in the district, and as the weather had cleared without frost that danger too was past for the time being. Our wheat would probably drop a grade or two, he said in answer to my question, "It is lucky we all have such heavy crops," he added optimistically.

Jim stayed with us for tea and soon after he had gone a cool wind sprang up from nowhere. More hopeful than we had been for a week, we went to bed with the prospect of a good night's rest. I had left all the windows and the doors open and the cool breeze drifted through the house, carrying with it the wholesome odor of the wet spruce trees.

I was asleep almost as soon as my head touched the pillow, and while it was really several hours it seemed only five minutes later that I was awakened by a crash of thunder that shook our little house by its roots. In the silence that followed I heard Nicolas call me, and going into her room I found her sitting up in bed, rather frightened, but determined to be brave. The second crash woke Murray and Rupert and then for ten minutes we all sat in silence as the storm raged, thunder following lightning with scarcely an interval, and the wind whipping great trees until their tops almost touch the ground. I heaved a sigh of relief when the rain began, for ever since Murray went away I have dreaded storms, though I used rather to enjoy them before. But

RED ROSE

For particular people—
COFFEE Pure! No chicory or any adulterant in this choice coffee

"Don't get tired—
drink Bovril"

my relief was short lived. The rain lasted but a minute and then, to our dismay we heard the unmistakable rattle of hail, great icy balls that fell, so it seemed, as thickly as snow, and with such force that the windows on the north side of the house were broken.

Morning showed us the full extent of the damage that had been done and it took all the courage that I possessed to keep me outwardly cheerful through that long day. For the first time in months Murray was really depressed, and there was nothing for me to do but "be like a gentleman" though my heart, too, was very heavy. Our beautiful field of wheat was cut from corner to corner as cleanly as if with a binder, and the grain threshed out of the heavy heads. The oats had not fared quite so badly, only half the field having been damaged. It had been one of the freakish storms of which I had often heard, the hail having fallen in a strip that twisted and turned like the trail of some fabulous monster.

We were not alone in our misfortune. The hail had missed the Fenwicks, but the Severns lost all their wheat and the Gagnons most of their

oats. Passing on to the Cameron farm the storm did less damage and by the time it reached the Mowbrays its fury was so spent that it did practically no harm. And with the exception of the Gagnons no one carried hail insurance.

(To be continued)

End Stomach Trouble, Gas Or Indigestion

"Pape's Diapiesin" is the quickest, surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages of Pape's Diapiesin.

A census of the motor cars in Switzerland shows an increase of over four thousand since last year. The High Alps, however, are still comparatively safe for pedestrians.

Mother's Advice

NO mother ever taught her children a more valuable lesson than the necessity of keeping the bowels regular.

Health, happiness and success are more dependent on this simple rule than most of us ever realize.

This mother advises the use of Dr. Chase's Kidney-Liver Pills because she has found this medicine to be absolutely dependable as a regulator of the liver, kidneys and bowels.

Physicians have estimated that nine-tenths of all human ills have their beginnings in the sluggish action of these eliminating organs and the consequent poisoning of the system.

Not only such ills as indigestion, constipation and biliousness but also appendicitis, Bright's disease, diabetes and high blood pressure arise from this cause.

Prevention is so much easier than relief after the disease has become settled that the

value of mother's lesson is at once apparent.

In many homes the rule is one pill at the week-end as a regulator and preventative and more frequent doses when required.

The strong points for Dr. Chase's Kidney-Liver Pills are their dependability to produce the desired results and their direct and combined action on liver, kidneys and bowels.

It is worth remembering that colds and other contagious diseases are quickly checked by the use of Dr. Chase's Kidney-Liver Pills to rid the system of the accumulating poisons.

You will notice that while the price of Dr. Chase's Kidney-Liver Pills has been increased to 35 cents, the box now contains 35 pills instead of 25 as formerly.

Likewise Dr. Chase's Nerve Food is 60 cents a box of 60 pills, instead of 50 cents a box for 50 pills. Edmansson Bates & Co., Ltd., Toronto.

Earnings Show Increase

The gross earnings of the Canadian National Railways for the week ending January 21 was \$4,344,425, an increase of \$337,999, or eight per cent. over the same week of last year. The gross earnings for the first three weeks of the present year were \$12,532,616.

HEART WAS SO BAD HAD TO SIT UP IN BED

Mrs. O. E. Fitzgerald, 106 Ross St., St. Thomas, Ont., writes:—"In the Fall of 1921, I was taken ill with my heart, but I did not pay much attention to it. I kept on with my household duties, but seemed to become worse and worse, and finally had to call in a doctor. He said I was all run-down and was a nervous wreck. I had a severe pain in my chest which would move over to my heart and it became so bad I could not lie down, as when I did I had such a smothering feeling I would have to sit up in bed till it passed away.

I tried several remedies, but with no good results. Finally, I was induced to try Milburn's Heart and Nerve Pills. I took 7 boxes, and I am now as well as I was 30 years ago, and I am now 65 years old."

Milburn's Heart and Nerve Pills are 50c a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

In winter the fur of the deer is especially adapted for swimming. The hairs are composed of air cells and when the coat is about an inch long it will suffice to float him. Most of the bucks shed their antlers in January.

MRS. GERTRUDE WHITE

IF YOU ARE NOT WELL
HERE IS YOUR KEY
TO HEALTH!

Hattonford, Alta.—"Being run-down after the flu I was in a weakened condition, had dizzy spells and shortness of breath, followed by faintness. The middle age period made things seem as though I'd never feel well again, but I was determined not to give up. Hearing of Dr. Pierce's famous Golden Medical Discovery I sent for a bottle, followed the directions, and soon felt less tired and faint, and finally I got back to my normal state. I have thanked God many times for the restoration of my health so I could remain with my family, and I gladly recommend this Discovery of Dr. Pierce's, for it is so pure, and worth a trial to any one who is run-down."—Mrs. Gertrude White, Crystal Springs Farm.

Golden Medical Discovery is put up in Dr. Pierce's Laboratory in Bridgeburg, Ont., and sold by all druggists in both tablets and liquid. Send Dr. Pierce 10c for trial package of tablets.

Write Dr. Pierce, Free Invalids Hotel, Buffalo, N. Y., for free medical advice.

WORLD HAPPENINGS BRIEFLY TOLD

The American Government has announced resumption of diplomatic relations with Greece.

George J. Seale, commissioner of the Manitoba branch, Canadian Red Cross Society, died suddenly at his home in Winnipeg.

Twenty head of buffalo from the Dominion Government's herd at Wainwright, Alta., will be shipped into the Yukon territory for the establishment of a buffalo park at White Horse.

A Banting Research Foundation has been established in connection with Toronto University to provide financial support for workers who have proposed definite problems of medical research.

The Federal Government, it is understood, is turning down flat the proposal of the Government of Manitoba to hand over to it the administration of the school lands funds. The fund is now held in trust, and the interest is passed to the western provinces.

William Hohenzollern, one time German emperor, was feted in monarchical splendor by his sons on the occasion of their father's 65th birthday. Princes Eitel, Frederick, August, Wilhelm and Oscar and Field Marshal Hindenburg were resplendent in gay military uniforms, while the crown prince contented himself with a civilian suit.

Women! Dye Faded Things New Again

Dye or Tint any Worn, Shabby
Garment or Drapery

Diamond Dyes

Each 15-cent package of "Diamond Dyes" contains directions so simple that any woman can dye or tint any old, worn, faded thing new, even if she has never dyed before. Choose any color at drug store.

Nobody Escapes

Directly or indirectly every person who earns or spends money helps share the general tax burden. That burden is reflected to the cost of living, in wages, in employment. Nobody escape it. It is a first lien on every man's property, whether that property be a home, a piece of land, a shop, a business, or simply a daily wage.—Kansas City Times.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next one cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms, and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The new sales tax will not increase the price of Baby's Own Tablets, as the company pays the tax. You can still obtain the Tablets through any medicine dealer at 25 cents a box, or by mail, post paid, from The Dr. Williams' Medicine Co., Brockville, Ont.

Much Nearer the Truth

The statement that one person out of every twelve is working for the government should read "One person out of every twelve is paid by the government?"—Milwaukee Journal.

Fight Against Opium

World War on Drug Evil to be Launched by League of Nations

A world fight against opium and the narcotic drug evil took definite form when the League of Nations issued invitations to the first international opium conference to be held at Geneva the first Monday in November, and a second conference on the third Monday of the same month.

The first conference will include delegates from countries having Far Eastern possessions where opium smoking exists. The second conference, which will include representatives of practically all countries of the world, will push The Hague convention decisions to secure a broad agreement concerning opium and its derivatives and definitely limit the production of opium.

Ship Via Panama Route

Alberta Butter Shipments Reach United Kingdom in Good Condition

Shipping of Western Canada butter via the Panama Canal to the United Kingdom has been satisfactory, according to Harrison Watson, Canadian trade commissioner in London.

Four thousand boxes of Alberta butter were forwarded by this route, during the fall, with success, the consignees stating that there was a saving of from 1½ to 2 cents a pound as compared with the eastern route.

It Testifies for Itself.—Dr. Thomas' Electric Oil needs no testimonial of its powers other than itself. Who-over tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, well know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

Tasty Tested Recipes

Griddle Cakes

1 cupful Borden's St. Charles Milk.
1 cupful water.
2 tablespoonfuls melted butter or butter substitute.
1 egg, well beaten.
3 cupfuls white flour.
1 teaspoonful salt.
4 teaspoonfuls baking powder.
2 tablespoonfuls sugar.

Combine the milk and water, add the shortening, sugar and the egg, and beat in the dry ingredients which have been sifted together. Beat thoroughly and fry as usual on a slightly oiled griddle, or on an unrolled aluminum or soapstone griddle. If very thin cakes are desired, add two more tablespoonfuls of evaporated milk and water.

Halibut Baked in Milk

Order two pounds of halibut steak cut half-inch thick. Lay it in a dripping pan, or large shallow baking dish. Dust it lightly with a little flour, salt and pepper and a sprinkling of minced parsley and barely cover it with one part of Borden's St. Charles Milk diluted with one and one-half parts of boiling water.

Bake in a moderate oven until the fish is tender—about 25 minutes. It should be somewhat browned on top and the liquid will be thickened by the flour and act as a delicious sauce.

Minard's Liniment for Dandruff

Record For Vancouver

On January 23 the Vancouver Harbor Board elevator made a new record for handling wheat. The elevator received 181 cars of grain, the daily average being 172, and a total of 181 cars in 24 hours was never reached before. In addition to this the elevator loaded outward, on board ships, 404,850 bushels, another record.

Taking the first step with the good thought, the second step with the good word, and the third step with the good deed, I entered Paradise.—Persian Proverb.

Air Defense Of London

British Air Ministry is Now Perfecting Safety Plans

The British air ministry is perfecting the air defense of London. Special machines are being rapidly built, and a call has been issued for 400 more men to man them, 50 of whom will be placed on home defense.

Under the ministry short service scheme, candidates will be commissioned immediately thus bringing the total of short service officers engaged in flying duty to 1,400. These short service commissions are granted for five years' service on the active list, followed by a period of four years' service on the reserve.

Help for Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Indian Farmers

Produced Greatest Crop in History During Last Year

The Indians of the three prairie provinces in 1923 season harvested the greatest crop in their history, according to the annual report of the superintendent of Indian affairs. In the three provinces the Indians harvested 638,561 bushels of wheat, 574,282 bushels of oats and 62,304 bushels of barley. The report shows they raised 58,264 bushels of potatoes and 10,000 bushels of other vegetables. They summerfallowed 20,000 acres of land; broke 6,808 acres; put up 57,000 tons of hay and 9,516 of green feed.

Mothers Value this Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Use Saskatchewan Clay

One of the newest industries to establish in Oshawa, Ont., is the Ontario Potteries. The first kiln has been opened. The company will produce table and art ware, using Canadian raw materials. The clay is being secured from Saskatchewan and the feldspar from Ontario.

Complete in itself, Mother Graves' Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Railroading has made wonderful progress within a generation. The old-time locomotive couldn't have knocked a jitney more than ten feet.

Minard's Liniment Heals Cuts

Leads In Sunshine

Calgary claims that it is Canada's leading sunshine city. The record for sunshine for the fall was as follows: September, 195 hours, or an average of 6½ hours daily; October, 228 hours, or 7 1/3 hours daily average; November, 156 hours, or 5 1/5 hours daily.

The Cause of Heart Trouble

Faulty digestion causes the generation of gases in the stomach which inflate and press on the heart and interfere with its regular action, causing faintness and pain. 15 to 30 drops of Mother Seigel's Curative Syrup after meals sets digestion right, which allows the heart to beat full and regular.

THERE IS A TIME FOR EVERYTHING

THE time to have your HARNESS REPAIRED and OILED is RIGHT NOW, not when you are ready to hitch up for work in the field.

I have everything in shape to fix you up for a good start. My repair shop is complete in every way with the best of machinery, materials and workmanship READY FOR YOUR SERVICE.

I make a specialty of oiling harness. Each and every harness is taken apart and thoroughly scrubbed with brush, soap and water to remove all sweat and dirt before being soaked in the oil tank. Every loop and part of the harness gets its share of the oil, a thing impossible to do by hand oiling.

My charges for this thorough work are very moderate:

Team harness \$3.00 per set

Plough harness, without breeching, \$2.50

Democrat harness \$2.50

Buggy harness \$1.50.

If harness is clean I can oil them from \$1.00 up.

If you do your own repair work I can furnish you with HARNESS LEATHER, either cut stock or by the side; also HARNESS HARDWARE, thread, wax, etc.

W. J. HILLYARD,

Dealer in Harness and Harness Supplies

DIDSBURY, ALBERTA

AUCTION SALE

Under instructions from Gordon Manhard we will sell by public auction on the premises known as the Old Mack Ryckman home, about 1/2 mile Southwest of Didsbury Post Office, on

SATURDAY, MARCH 8th, 1924

The following:—

PUREBRED HOLSTEIN CATTLE

Countess Segis Spofford. Born June 30th, 1917. Fresh Feb. 9th, 1924. Heifer calf, born Feb. 9th, 1924. Also be sold. Sire King Segis Alcartra Spofford. One of the leading sires in Canada; some of his daughters sold in Toronto for from \$2,000 to \$4,000 each. Dam Countess Walker Segis (26561); butter production for 7 days 26.25 lbs. milk for seven days 524 lbs.

De Kol Ormsby Howtje. Born Mar. 14, 1916. Due to calve in April. Sire Francis 3rd Admiral Ormsby 4884; his dam has butter record of 29 lbs. in 7 days. Dam Lorena DeKol Howtje (18116).

Highland Re-Echo Crown (46666). Born Nov. 15, 1921. Sire Re-Echo (46666); his two nearest dams have milk records higher than any other bull in the world. Dam Pauline Crown Segis (62224); she has butter record of over 28 lbs. in 7 days. Highland Re-Echo is a granddaughter of the greatest cow in the world for yearly production, DeKol Plus Segis Dixie. She was bred in December.

Highland Beauty Walker (95952). Bred in January, born November 14, 1921. Sire Raymondale, Sylvius Walker (31635), a grandson on May Echo Sylvia. Dam Ridgedale Beauty (32705).

May Walker Veeman (104543). Born June 5, 1922. Sire King Sadie Walker Veeman 46424. Dam Oakdale May Alcartra.

Bright View Snowflake Keyes (114862). Born March 10, 1923. Sire Segis DeKol of Wicklow 43499; a son of the second highest milk record cow in Canada. Dam Snow Flake Echo Keyes 160500.

Bright View Sadie Alcartra (114863). Born December 5, 1922. Bred February 6, 1924. Sire King Sadie Walker Veeman 46424. Dam Bright View Alcartra Concordia 194162.

Purebred Yearling. Sired by bull owned by Mr. Carmen Baker for which he paid Hon. A. C. Hardy \$7,000. 20 Dams in his pedigree averaged over 30 lbs. butter in seven days.

Purebred Bull Calf. Born October 24, by same sire as above. His dam has a high milk and butter record and is a noted show cow.

Purebred Bull. Born March 21, 1923. His dam has butter record of over 29 lbs. in seven days and she is half sister of the noted May Echo Sylvia.

Year Old Bull, that I regret very much to part with. He represents the best combination of blood lines in Canada. The service fee paid to Hon. A. C. Hardy was \$500 to get dam of this calf. She freshened at just 2 years old and made over 22 lbs. butter in 7 days.

A purebred Holstein Bull 5 1/2 years old, "Rock Alta Wayne," will also be offered for sale at the sale being conducted by Mr. Gordon Manhard on Saturday, March 8th. E. Sherrick.

MISCELLANEOUS

Refrigerator; 30 Purebred white Rock pullets; Piano bench.

Notice to Butter Makers

Owing to so much butter being made of unsalable quality we will pay a premium for dairy butter coming up to the standard

This has never been done in Didsbury before and we realize that in some cases will end disastrous for us. So if you see one of the brothers headed up the alley with the remnants of a basket hung over his head or greased up like a pig on the 4th of July ask no questions.
